Project # 1. In the City of San Fernando at the connectors of Routes 118 and 210. Initial project was for the seismic retrofit of the 118/210 Separation structures. The project was completed in 1997. This supplemental allocation pays a final arbitration settlement related to welding inspection.

BACKGROUND:

On March 30, 1994, the California Transportation Commission delegated to the Department authority to allocate funds by Resolution G-11, as revised by Resolution G-94, for seismic retrofit projects. This authority allows the Department to begin work without waiting for the next Commission meeting to receive an allocation.

This project is part of the legislatively mandated Bridge Seismic Retrofit Program (SB131), approved by the Governors Office on March 15, 1994.
